SUMMARY

Senior software engineer with 11+ years building web, hybrid mobile and backend applications. Strong in frontend development workflow (Vue 3, Angular, React), design systems and shared component libraries, with full-stack experience in Node.js, PHP and MySQL.
Has led small teams, mentored less experienced developers and worked directly with clients from setup through production release.

EXPERIENCE

Independent Contractor, Frontend Development

Nov 2023 – Nov 2026

Alertdriving (CapOptix) · Toronto, Canada (Remote, Mumbai)

Vue 3, Ionic, Quasar, Capacitor/Cordova, SCSS, JavaScript, GraphQL and REST, in a multi-app monorepo.

- Led a codebase-wide styling overhaul, moving legacy CSS and utility classes to component-level SCSS built on design tokens, mixins and responsive breakpoints.
- Migrated modals, dialogs and form inputs from Ionic to Quasar, and built a documented shared component library used by multiple apps.
- Built responsive, mobile-first dashboards from Figma designs, with custom bar, line and target-vs-actual charts, score cards and data tables.
- Contributed to media features: a video recorder and player, an audio player and interactive slide presentations with public read-only modes.
- Worked to build client-side PDF export (html2pdf, jsPDF) and a reusable multi-file uploader with presigned-URL uploads to S3-style storage.
- Collaborated on integrating REST and GraphQL APIs, moving business logic into centralized stores, and rolling out features behind feature flags.
- Contributed to telephony and call-workflow screens, plus native mobile work: splash screen, status bar theming and push-notification tokens.
- Improved accessibility (WCAG) and internationalisation, and wrote the team's merge request template for UI work.

Lead Software Engineer

Nov 2021 – Aug 2023

Grassdoor Logistics Technologies Pvt Ltd. · Verna, Goa (Remote)

- Maintained and extended the customer portal backend in Node.js and MySQL, with HTTP and WebSocket APIs for placing, tracking and managing orders in real time.
- Integrated and maintained payment gateways for online order payments.
- Extended the order routing system that assigns incoming orders to available delivery staff.

Senior Software Developer

May 2020 – Nov 2021

SugarBox Networks Pvt. Ltd. · Andheri, Mumbai

- Built UI, API integrations and unit tests for internal web admin consoles using Angular (9+) and Jest.
- Developed and unit-tested Node.js APIs for internal products.
- Developed a vanilla JavaScript version of an internal SDK.

Senior Software Engineer L1

May 2015 – May 2020

Robosoft Technologies Pvt. Ltd. · Udupi

- Developed more than 20 web applications (frontend) and hybrid mobile apps, alone or as part of a team.
- Implemented change requests on existing projects.
- Worked directly with client teams to resolve issues and speed up delivery without lowering quality.
- Led teams of up to 5, mostly trainees and junior developers, on medium and large projects, passing on knowledge along the way.

PROJECTS

Shared Component Library and Design System

Alertdriving (CapOptix)

Led the move from legacy CSS to a token-based SCSS system and from Ionic to Quasar components. Built reusable dropdowns, autocomplete, date pickers, data tables, uploaders and modals, shared across several apps in a monorepo.

Media and Presentation Features

Alertdriving (CapOptix)

Built video and audio recording and playback, interactive slide presentations with several layouts, and branded client-side PDF export.

Routing System

Grassdoor Logistics

Maintained and extended a Node.js system that assigns incoming orders to available delivery staff.

Customer Portal Backend
Grassdoor Logistics
Maintained and extended a Node.js service of HTTP and WebSocket APIs for placing and managing orders, payment gateway integrations and customer portal data.

Vendor Management System
SugarBox Networks
Built a major part of the UI and the Node.js backend APIs of an admin console for third-party vendors, with unit tests for both.

Mutual Funds Investment App (Android/iOS)
Robosoft
Led a team of 2–3 developers building a wealth management and investment app from scratch. Handled coding, code reviews, app store releases and client communication.

White-label Video Survey App (WebRTC)
Robosoft, clients ICICI and Bajaj Insurance
Refactored a plain JavaScript codebase into a modular one that is easy to customize per client, and delivered change requests over several years.

Home Loan Mobile App
Robosoft, client Indiabulls Housing Finance
Led client-side development from setup to production release.

Web Platform
Freelance, client Jamben Technical Services LLC (Dubai, UAE)
Built their web platform.

Mutual Fund / Asset Management Mobile Platform
Freelance, client Bridgemonte Asset Advisors (Mumbai)
Built their mutual fund / asset management mobile platform.

Web Platform
Freelance, client Fixology Technical Services Co. LLC (Mumbai)
Built their web platform.

Other Robosoft work: a mobile trading platform with real-time updates, a lead management app, a lifestyle news portal and a mutual fund app.

SKILLS

Languages	JavaScript (ES2020+), TypeScript, HTML5, CSS3, SCSS, JSON, XML
Frontend frameworks	Vue 3, Quasar, Ionic, Angular 2+, AngularJS, React, jQuery, Bootstrap, Angular Material
Mobile	Capacitor, Cordova, Ionic, Android Studio, Xcode

UI and design systems	Design tokens, SCSS mixins, shared component libraries, responsive design, accessibility (WCAG), i18n
Data and media	Chart.js, D3, custom SVG charts, html2pdf, jsPDF, WebRTC, audio/video APIs
Backend and APIs	Node.js, PHP, Slim, REST, GraphQL, WebSockets
Databases and storage	MySQL, SQLite, S3/MinIO object storage
Testing	Jest
Tools and process	Git, GitHub, merge request code reviews, Bitbucket, Jira, Jenkins, SonarQube, VS Code, Agile, pair programming
Operating systems	Linux, Windows, macOS

EDUCATION

Bachelor of Computer Applications (2012 – 2015)
St Mary's College, Shirva — First Class with Distinction, Mangalore University

Higher Secondary Certificate, Science PCMB (2010 – 2012)
St Thomas Jr College, Goregaon (E), Mumbai — 62.83%

Secondary School Certificate (2010)
St Thomas High School, Goregaon (E), Mumbai — 76.20%
